

Mercer Slough Nature Park Trails

Nestled in the heart of Bellevue, the 320-acre Mercer Slough Nature Park offers a tranquil setting for a variety of recreational experiences. The Mercer Slough is Lake Washington's largest remaining wetland. Containing hundreds of plant species and an abundance of water resources, the park provides a diverse habitat for over 10 species of wildlife. A System of interconnected elevated boardwalks, soft surface trails and asphalt paths transport visitors through this unique urban wetland.
